Official Newsletter Issue 2

18th November 2011

Dear Enthusiast,

Welcome to our second newsletter.

The RMS, formerly the RTA, has officially announced that the VSCCS will commence on the 1st of December 2011. Currently the ACMC Inc have no information regarding the number of Engineer Signatories who have committed to the new scheme, however the evidence suggests that the number is very low.

The “Motor Enthusiast Conference 2012” dates have been confirmed for 26th February at Eastern Creek Raceway. Planning is now well underway with an open invitation for all motor enthusiasts.

Individual delegates from a range of Enthusiast Groups will be selected to attend the formal conference held on the day. The theme of this conference will be “Driving Our Future”.

The purpose of the conference is to -

- Discuss the implementation of the VSB14 (Vehicle standards, supplements and proposed testing procedures required for registration in NSW).
- Unite all Motoring Enthusiast groups within NSW.
- Establish common interests throughout the Groups.
- Provide correct information to all members.
- Make known representation of our members organizations to government and other authorities.

There will be representatives from the NSW parliament, RMS and other relevant organizations in attendance.

There will be industry displays present on the day and displays of a variety of different Motor Vehicles.

We look forward to your involvement and remind you that this is your opportunity to have your say and support the future of the motoring enthusiast communities in NSW.

Watch our website for further news as they become available.

Kind Regards

ACM Inc Commitee
